BNB Smart Chain • BEP-20 Token

Max Supply: 112,000,000 BNVA

August 2026

01. Introduction

ButterNova (BNVA) is a community-driven BEP-20 token built on the BNB Smart Chain. This project is designed with a focus on transparency, fair distribution, and long-term community growth.

ButterNova aims to build a simple, transparent, and community-focused ecosystem where early supporters and active community members play a vital role.

Concept of the Name ButterNova

- Butter: Symbolizes a smooth, simple, and enjoyable experience.
- Nova: Symbolizes a new beginning and new possibilities.

Core Principles

- No hidden allocations
- Transparent token distribution
- Locked liquidity and vesting structure
- Community-focused growth

Key Statistics

- Maximum Supply: 112,000,000 BNVA
- Network: BNB Smart Chain
- Token Standard: BEP-20
- Liquidity Lock: 1 Year

03. Vesting & Transaction Tax Structure

ButterNova utilizes a robust vesting system and transaction tax model to maintain long-term ecosystem stability and reward active holders.

Transaction Tax

Buy Tax: 0%

Sell Tax: 3%

Sell Tax Distribution

- Liquidity Support / LP Strengthening — 1%
- Fast Festival Airdrop / Community Reward — 1%
- Ecosystem Growth & Development — 1%

04. BNVA Mining App, Testnet & Mainnet

ButterNova plans to develop a dedicated Mining App to increase community participation, followed by rigorous testnet evaluation and mainnet deployment.

- Mining App Launch (Q3 2027): Users will have opportunities for community engagement and early supporter benefits.
- Testnet Phase: Focuses on smart contract testing, performance evaluation, security improvement, and community feedback.
- Mainnet Launch: Official BEP-20 token deployment, liquidity activation, and ecosystem expansion on BNB Smart Chain.

05. ButterNova NFT Ecosystem & Badge System

To expand the utility and engagement of the ButterNova ecosystem, an exclusive NFT collection will be introduced.

- Total Supply: 10,000 NFTs
- Minting Window: Opens 15 days after the official BNVA token listing.
- Free Minting Opportunity: Users can mint NFTs for free, provided they hold the required access badge.

NFT Tax & Buyback

NFT minting will open after the official BNVA token listing. NFT transactions will carry a 3% NFT Tax.

- NFT Tax: 3%
- Collected NFT Tax will be used to buy back BNVA tokens from the market.
- Bought-back BNVA will be gifted (airdropped) back to community members.

Badge System & Distribution

To claim and mint the NFTs, users must acquire a verification badge. Badges can be obtained through the Whitelist Mystery Box or purchased directly from the App Shop.

Whitelist & Mystery Box

Upon the official website launch, 20,000 whitelisted users will each receive a Mystery Box.

- 5,000 users will randomly receive a Free Badge Card from their Mystery Box.
- The remaining 15,000 users will randomly receive Points (2,000 / 3,000 / 5,000 Points).
- Each Free Badge Card contains a unique code, redeemable for a Free NFT Mint. This code is non-transferable and cannot be shared or transferred to another user.

Badge Types

- Free Badge: Limited allocation of 5,000 Free Badges, distributed via the Whitelist Mystery Box.
- Buy Badge: Available for purchase at \$3 from the App Shop, limited to 5,000 users, for guaranteed access to a Free NFT Mint.
- Total Badge Cards: 5,000 Free Badges + 5,000 Buy Badges = 10,000 Badge Cards, matching the 10,000 NFT total supply.

VIP Badge

In addition to NFT-access badges, a VIP Badge is available for purchase in the App Shop at \$10, limited to 20,000 users. VIP Badge holders receive:

- Early access to BNVA token claim
- No-KYC: automatically verified without submitting KYC
- A Blue Tick verified badge on their profile

Welcome Bonus

Every new user who signs up receives a Welcome Bonus of 500 Points.

06. Future BNVA Web3 Games Use Case

To make the ecosystem more robust and user-centric, practical use cases for the BNVA token will be integrated into Web3 Gaming in the future.

- In-Game Currency & Rewards: BNVA tokens will be used for in-game transactions and as rewards/prizes.
- Play-to-Earn (P2E): Users will have opportunities to earn extra BNVA by playing games.

- **NFT & Item Purchases:** BNVA tokens can be used to purchase exclusive digital assets, characters, or items.
- **Ecosystem Utility:** Token demand and utility will be further enhanced through gaming platforms.
